

Glyn William Humphreys 1952-2016

Publications

1978

Humphreys, G.W. (1978). The use of category information in perception. *Perception*, 7, 589-604.

1981

Evett, L.J. & Humphreys, G.W. (1981). The use of abstract graphemic information in lexical access. *Quarterly Journal of Experimental Psychology*, 33A, 325-350.

Humphreys, G.W. (1981). Direct vs indirect tests of the information available from masked displays: What visual masking does and does not prevent. *British Journal of Psychology*, 72, 323-330.

Humphreys, G.W. (1981). Flexibility of attention between stimulus dimensions. *Perception & Psychophysics*, 30, 291-302.

Humphreys, G.W. (1981). On varying the span of visual attention: Evidence for two modes of spatial attention. *Quarterly Journal of Experimental Psychology*, 33A, 17-31.

1982

Humphreys, G.W., Evett, L.J. & Taylor, D.E. (1982). Automatic phonological priming in visual word recognition. *Memory & Cognition*, 10, 576-590.

1983

Humphreys, G.W. (1983). Frames of reference and shape perception. *Cognitive Psychology*, 15, 151-196.

Humphreys, G.W., Quinlan, P.T. & Evett, L.J. (1983). Automatic orthographic priming. *Working Papers of the London Psycholinguistics Group*, 5, 48-55.

Riddoch, M.J. & Humphreys, G.W. (1983). The effect of cueing on unilateral neglect. *Neuropsychologia*, 21, 589-599.

1984

Humphreys, G.W. (1984). Shape constancy: Changing the orientation of the principal axis can be more detrimental than changing the relative positions of local features. *Perception & Psychophysics*, 36, 50-64.

Humphreys, G.W. & Riddoch, M.J. (1984). Routes to object constancy: Implications from neurological impairments of object constancy. *Quarterly Journal of Experimental Psychology*, 36A, 385-415.

1985

Humphreys, G.W. (1985). Attention, automaticity and autonomy in visual word processing. In D. Besner, T.G. Waller & G.E. MacKinnon (Eds.), *Reading Research: Advances in Theory and in Practice*. V5. New York: Academic Press.

Humphreys, G.W., Riddoch, M.J. & Quinlan, P.T. (1985). Interactive processes in perceptual organization: Evidence from visual agnosia. In M.I. Posner & O.S.M. Marin (Eds.), *Attention & Performance XI*. Hillsdale, N.J.: Erlbaum.

Humphreys, G.W. & Evett, L.J. (1985). Are there independent lexical and non-lexical routes in visual word processing? A review of dual route models of reading. *The Behavioral and Brain Sciences*, 8, 689-740.

1986

- Bromley, J., Humphreys, G.W., Javadnia, A., Riddoch, M.J. & Ruddock, K.H. (1986). Pattern discrimination in a human subject suffering visual agnosia. *Journal of Physiology*, 377, 67.
